How to Participate?

Only students from ADEMA University School and those from invited universities who have completed the corresponding registration form will be eligible to submit abstracts to the congress.

GENERAL RULES

1. **Only original works** that have not been published in journals or presented at other congresses will be accepted.

2. The official language of the congress is **English**. All abstracts and presentations must be written in this language.

3. Submissions must be made through the submission form available on the congress website.

4. Once the abstract has been successfully submitted, the contact person will receive a confirmation email. If confirmation is not received, please contact the Scientific Secretariat scienticcommittee@eua.edu.es as soon as possible so we can verify whether your submission has been properly received.

5. A maximum of six authors per presentation is allowed, including the presenting author, who must be listed as the first author.

6. Each author may submit only one oral communication or poster as first author, although their name may appear on up to three works in total.

7. The first author must be registered for the Congress.

8. Abstracts must be submitted before April 13, 2026, at 23:59 (Spanish mainland time).

9. The name of the author and co-authors must include both surnames preceding the given name. The order in which authors appear will be used for the subsequent issuance of certificates and in any publications where the works are included.

10. A digital certificate will be sent by email to the first author, listing all authors, once the congress has concluded.

11. All notifications will be sent via email to the contact person. It is therefore essential to clearly provide their email address and contact phone number.

ABSTRACT GUIDELINES

1. The abstract must be submitted in English and must contain between 150 and 250 words. Abbreviations should not be included in the abstract.

2. Submitted works may fall into one of the following categories:

    - Research studies
    - Systematic reviews
    - Narrative reviews
    - Clinical protocols
    - Clinical case reports

3. Authors may request presentation in oral or poster format. All presentations must be delivered at the time and venue assigned by the Congress Scientific Committee.

4. The structure for research studies, systematic reviews, narrative reviews, and clinical protocols must be as follows:

    - Introduction
    - Objectives
    - Methodology
    - Results
    - Conclusions
    - Keywords (MeSH terms)

5. The structure for Clinical Case Reports must be as follows:

    - Introduction
    - Description of the clinical case
    - Conclusions
    - Keywords (MeSH terms)
